

I am a subscriber to XM Radio, based on my service fee to XM Radion, I like their servie very much, especailly the Traffic & Weather channel, that service is pretty amazing, and not availabe elsewhere, like local radio, and nation-wide AM radion. I believe that XM Radion is providing this good service to its subscribers.

I respectfully urge to reject the NAB'S petition 04-160, so that we, customers, still can get variety and quality fo Radio service.

Thanks,

Ning Wang
